## CONDITIONS OF SALE

---

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of The Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of The Beef Shorthorn Cattle Society, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a male or female. A twin female with a male will not be accepted, unless guaranteed in calf, or having had a calf.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates's Herd Book (Beef) by the person whose name appears as the Exposer, but every animal is sold subject to all visible faults, except where a bull is sold with only one testicle down the owner must make intimation to this effect in the Catalogue. Buyers must satisfy themselves as to the correctness of all bull calves, under 10 months old, before taking delivery. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Auctioneers at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

Notwithstanding the above, no opening bid of less than 100 guineas may be accepted for any bull. Any bull failing to receive this bid will be passed out unsold.

(Note.—The condition regarding the opening bid of 100 guineas for bulls is meantime only applicable to the February Show and Sale at Perth.)

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum per Annum* and for the keep of, and any other expense incurred by them in connection with, such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test" or "Re-Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Roup Roll.
- (b) If the option to re-test is given, the Purchaser may require the following Tests—
  - (i) Single Intradermal Comparative Test for Tuberculosis;
  - (ii) Agglutination Test for Contagious Abortion; and
  - (iii) Complement Fixation Test for Johne's Disease.

These Tests to be carried out by a laboratory approved by the Ministry of Agriculture, Fisheries, and Food.

Notice in writing of the intention of the Purchaser to carry out such Tests must be given to the Auctioneers before, or immediately after, termination of the Sale.

**Should any Vendor wish to offer additional Tests, or should any Buyer who may require additional Tests make arrangements with the Vendor prior to the Sale, details must be given to the Auctioneers and shall be provable only if included in the Auctioneers' Roup Roll.**

- (c) The Tests shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be appointed by the Auctioneers.
- (d) The Tests shall only be made when the animal is (in the opinion of the chosen or appointed Veterinary Surgeon) in a fit state for testing and in the case of a Test for Tuberculosis on an animal in

- an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food (unless altered by mutual agreement).
- (e) The declaration of the chosen or appointed Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
  - (f) If the animal be so declared not to have passed the Tests, the Buyer shall have the right to require the Seller to re-purchase the animal at the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.
  - (g) In any case where the option to Test is exercised, the Auctioneers shall be entitled to retain the price until the result of the Test is declared.
  - (h) The expense of any such Test or Tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within (a) three calendar months from the date of the Sale, or (b) within three calendar months of the animal reaching twelve months of age, whichever is the later date, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within the limits as prescribed above. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph)

less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull from Great Britain or Ireland.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females must be certified to have passed the Agglutination Test for Contagious Abortion within three months prior to the date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to any laboratory approved by the Ministry of Agriculture, Fisheries, and Food. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal that is known to be infected with Contagious Abortion. Any female which has not passed the Agglutination Test within three months prior to the date of Sale but which has been vaccinated, can only be accepted for the Show and Sale, provided that one of the following certificates (signed by a Veterinary Surgeon) is supplied to the Auctioneers on or before the arrival of the animal at the market premises:—

- (a) That the animal was vaccinated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale.
- (c) Any female not complying with the above Regulations must be penned separately and sold at the end of the Sale, the results of an Agglutination Test, made within three months prior to the date of the Sale, to be displayed on the Pens.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animals from Great Britain or Ireland or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate, the

Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be made and established as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Beef Shorthorn animal registered in Coates's Herd Book (Beef) and sold at this Sale, such dispute shall be referred to the Directors of The Beef Shorthorn Cattle Society as sole Arbiters for settlement, and the decision of the Directors shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue and in the sale-yard, must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by Selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. Commission and Levy.

- (a) The Auctioneers shall charge and deduct commission of One Shilling per guinea, also a Levy of eightpence per guinea (which shall be paid by them to the Society), from the price of all animals sold, including those which may be sold privately in their premises.
- (b) The Auctioneers shall be entitled to make a charge of £1 per animal against the owner on all animals entered but not put forward for sale.

- (c) The Auctioneers shall be entitled to charge against the owner one per cent. on the price bid or £1 per animal whichever is the greater, on all animals put through the sale ring and withdrawn.
- (d) The Auctioneers shall not be entitled to charge commission or levy on animals which for any reason are returned to the Vendor and the sale cancelled, but shall be entitled to make ordinary charges against the owner in respect of cataloguing, keep, etc.

16. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

For MACDONALD, FRASER & CO., LTD.,

Warranted in terms of Article 8 of the Conditions of Sale.

Calrossie Orlando (sire, Banchory Orangeman (8074); dam, Calrossie Augusta Treanea (50137)) was reserve junior champion at Perth, and was purchased for the Gotwick Herd at 3500 guineas.

Bapton Silver King, the great show bull, won his class at the R.A.S.E. Show for four years in succession. He was supreme champion in 1961; reserve supreme champion in 1960, and also reserve for the Burke Trophy twice.

Date of last Test—March, 1964.

## REFERENCE TO SIRES

---

- (1) **CALROSSIE DIADEM** (15657), red, calved 11th February, 1958, bred by Messrs. J. & D. P. MacGillivray, Calrossie—sire, Banchory Orangeman by Gallant Marshal; dam, Calrossie Ramona Ramsden by Calrossie Highland Piper by Calrossie Welcome.

Calrossie Diadem was the top-priced bull at Perth in 1959 when purchased for the Glamis Herd for 5200 guineas. His breeding record is far from being equalled by any other Beef Shorthorn bull alive at the present time. He sired, among others, the following: 1961—Glamis Trademark, supreme champion at Perth, sold for 4800 guineas to Señor Elordy, Argentina; 1962—Glamis Benefactor, supreme champion at Perth, sold for 5800 guineas to Bapton and Louada, now the world's record-priced Shorthorn bull; 1963—Glamis Supreme Commander, top-priced bull at Perth, sold to Señor Carlos Duggan, Argentina, for 6800 guineas; 1964—Glamis Crowning Glory, top-priced bull at Perth, sold to Mr. James Schofield, for Señor Enrique Santamarina, Argentina, for 8500 guineas.

- (2) **CALROSSIE HIGHLAND MONARCH** (386899), red, calved 20th April, 1951, bred by Messrs. J. & D. P. MacGillivray, Calrossie—sire, Calrossie Welcome; dam, Calrossie Goldie Lass by Glastullich Fortress.

Calrossie Highland Monarch was purchased privately at Calrossie after he had been retained as a stock bull from the crop of calves that averaged £3665 10/- for thirteen at Perth in 1952. His sons include Glamis Grand Slam, sold for 5500 guineas; Glamis Newsreel, 3000 guineas; Glamis Gay Monarch, 2300 guineas; Glamis Double Dash, 2200 guineas; Glamis Gay Gordon, 1700 guineas; Glamis Rothes Knight, 1600 guineas; etc. Sons of Calrossie Highland Monarch won all the group prizes at Perth in 1955, as well as the reserve junior championship, and also the champion and reserve at Aberdeen. The daughters of Calrossie Highland Monarch are very favourably commented upon by breeders who have seen them. At the Bapton/Glamis Reduction Sale in October, 1957, nine of his daughters sold as follows:—1100 guineas, 1000 guineas, 1000 guineas, 820 guineas, 800 guineas, 600 guineas, 500 guineas, 450 guineas, and 380 guineas, thus averaging £775 16/-.

- (3) **KAIR MASTERKEY** (4176), red roan, calved 7th April, 1955, bred by Mr. G. J. C. Anderson, Kair—sire, Calrossie Crocus Count by Calrossie Welcome; dam, Kair Janet by Corrimony Golden Sovereign.

Kair Masterkey was 1st in his class, junior champion, and reserve supreme champion at Perth in 1956, where he was purchased for the Glamis Herd at 5600 guineas. He proved a wonderful breeder of both males and females. At the Bapton/Glamis Reduction Sale in 1957, six heifer calves from his first crop averaged £519 15/-. His only other female sold at public auction was Glamis Princess Olana, one of the reserve pair at Perth in 1959, sold for 520 guineas. His first crop of bull calves won the following prizes at Perth in 1958:—junior and reserve supreme championship; best group of three by one sire; and reserve for the best group of five. They sold to 2700 guineas, and averaged £1325, one of the best averages of the Sale. His second crop, sold at Perth in 1959, won the following prizes:—two 1sts, one 2nd, and one 3rd in their classes, and stood reserve for every group award. After being used in the Glamis Herd for three seasons, Kair Masterkey was exported at a high figure to Mr. Vaughan Moore, Iowa, U.S.A.

- (4) CALROSSIE CONSTELLATION (396200), red, calved 1st March, 1953, bred by Messrs. John & D. P. MacGillivray—sire, Calrossie Welcome (368471); dam, (318937) Calrossie Flossy Beau by Kirkton Baronet (335904).

The bull of the year in 1957 needs little comment. He is perhaps one of the greatest sires the breed has produced in recent years. His first son, the record-priced, 15,000-guineas Bapton Constructor, has created a new era in Shorthorns in North America, 15 of his sons being sold at the 1959 Louada Sale to gross £35,795. His stock to date has sold for over 400,000 dollars in North America. Other famous sons in North America are the 7000-guineas Bapton Cairnbrogie; the 4100-guineas Bapton Copyright; the 2200-guineas Bapton Cavalier; and Bapton Craftsman, sold at the Edellyn Sale to Mr. Anthony Petkus, and now with Mrs. Fenwick, Boll Weevil—all bulls which are making their mark on the breed over there to-day. His females are offering to be grand breeders and milkers, with good heads and grand, sound legs, and they are among the top females in the breed to-day. At the 1963 Ellon Show, in a class of 12 females, the first four places were all filled by daughters of Calrossie Constellation.

- (5) CALROSSIE POWER-DRIVE (19972), red, calved 20th March, 1960—sire, Banchory Orangeman (8074); dam, (11310) Calrossie Flossy Frances by Calrossie Claymore (396198).

Calrossie Power-Drive was purchased at Perth for 2000 guineas in 1961, and, in the following year, his full brother, Calrossie Pre-Eminent, was purchased by Mr. Alan Grant, for 3000 guineas, as stock bull for the Thorn Herd. He is a bull of great quality, and of a beautiful, deep red colour, while his dam is generally acknowledged as one of the best cows at Calrossie, with lovely character and good lines. His g.-dam, Calrossie Flossy Flora, is a full sister to Calrossie Wildfire, who was used in the Coldoch Herd for three seasons, and then was sold to Señor Enrique Santamarina in Argentina. At the 1962 Palermo Show, he sired the reserve two-year-old champion, who was sold for the breed record price of approximately 9000 guineas.

- (6) BAPTON CLANROY (10017)—sire, Bapton Constructor (6414); dam, (432509) Bapton Marilyn Broadhooks by Kirkton Hercules (381696).

Bapton Clanroy was purchased at Perth for 3000 guineas in 1958. He was one of the two stock bulls by Bapton Constructor who were retained in this country. Bapton Constructor is now world-famous by reason of his record price of 15,000 guineas, and the sensational popularity of his progeny in Canada. Bapton Clanroy is renowned for his great strength of bone and general ruggedness, which shows in his females left in the herd. He was used for three seasons in the herd, and then sold to Mr. Horace G. W. Crookes, Lornwood, Transvaal, South Africa, for whom he was reserve champion at the Rand Show in Johannesburg. He sired Coldoch Sportsman, the winner of the D. M. Stewart Challenge Trophy, and reserve senior champion, at Perth in 1961. This bull was purchased by Señors J. & G. Elordy, Argentina,

- (7) CALROSSIE WILDFIRE (2328)—sire, Calrossie Welcome (368471); dam, (318938) Calrossie Flossy Loo by Kirkton Baronet (335904).

Calrossie Wildfire was purchased for 2800 guineas at Perth in 1955. His show successes included reserve supreme champion at the Royal Highland Show at Edinburgh in 1955, and reserve male champion at the Royal High-

land Show at Inverness in 1956. He was used for three seasons in the herd, and then sold to Señor Enrique Santamarina, Argentina. He sired Coldoch Ocean Swell, sold for 2400 guineas to the same herd, who is now famous in the Argentine as the sire of the grand champion at Palermo in 1960; Coldoch Orion, exported to New Zealand; Coldoch Orient, to Australia; and Coldoch Royal Scot to Mr. W. F. Wright, Prumplestown, Eire. He left females in the herd of beautiful quality.

- (8) RICHWOOD RENOWN (P) (71)—sire, Lynnwood Mainline (P); dam by Lynnwood Destiny (P).

Richwood Renown was 1st prize senior bull calf at the Chicago International in 1957, and was the highest-priced polled bull sold at auction in the U.S.A. in 1957 and 1958. He proved a very good breeder of both males and females.

- (9) REMUS OF BAPTON (P) (191)—sire, Coronet Max Leader 3rd (P); dam, Bapton Flossy Louisa by Calrossie Constellation.

Remus of Bapton is a dark red bull, of tremendous size and grand fleshing, and very sound on his legs—qualities which he is passing on to his progeny in a marked degree.
